

INSPIRED BY PASSION

At Inspired Testing, we believe that a testing framework is as essential as a development and operations framework. We subscribe to the "Shift Left Approach" which means that testing is introduced at the start of the software delivery process.

Quality is often left late in the development process and as a result it is usually rushed. Inspired Testing utilises a fresh approach that sees testing as an integral aspect of the software cycle, from inception to completion.

REAL-TIME RESULTS. ROI

Our model views quality as a driver of process, with compliant systems, integration points, portals and Apps forming a powerful technology interface with your customer base. In this way, we ensure software quality is never compromised. With testing across a wide range of devices, platforms and environments, the minimising of functional failure becomes a retention strategy.

INSPIRED RESOURCES

Inspired Testing is powered by DVT's flexible, scalable resource pool of 250+ QA professionals. With 20 years' experience, we have the knowledge and capability to provide our clients with the best skills at the most competitive prices, to achieve measurable return on investment. We know how to structure, execute and automate testing, using a unique combination of frameworks, techniques and a blended onshore offshore delivery model.

We take the time to understand your market. To understand the risks you face. To know where your challenges lie and who your competitors are. We test your products against this background.

- Software testing professionals
- Subject-matter experts
- Scripters
- Team leads
- Functional testers
- Non-functional testers

Good testers have all the questions

INSPIRED OPTIONS

Our Inspired Testing model utilises Solutions Architecture and a proven Test Automation approach that complements our clients' journey of digital transformation. We use a blend of custom-built tools and leading global products to deliver significant improvements in quality, utilising behaviour-driven development (BDD) and automation frameworks for long-term benefit. Our model provides superior testing and aspires to seamless integration across all platforms, devices and environments. We understand that ultimately what we do makes a difference to the lives of our clients' customers.

Quality means retaining clients; making software work first time, every time; investing in an automated future; and digitalising your business for efficiency.

There should be no compromise.

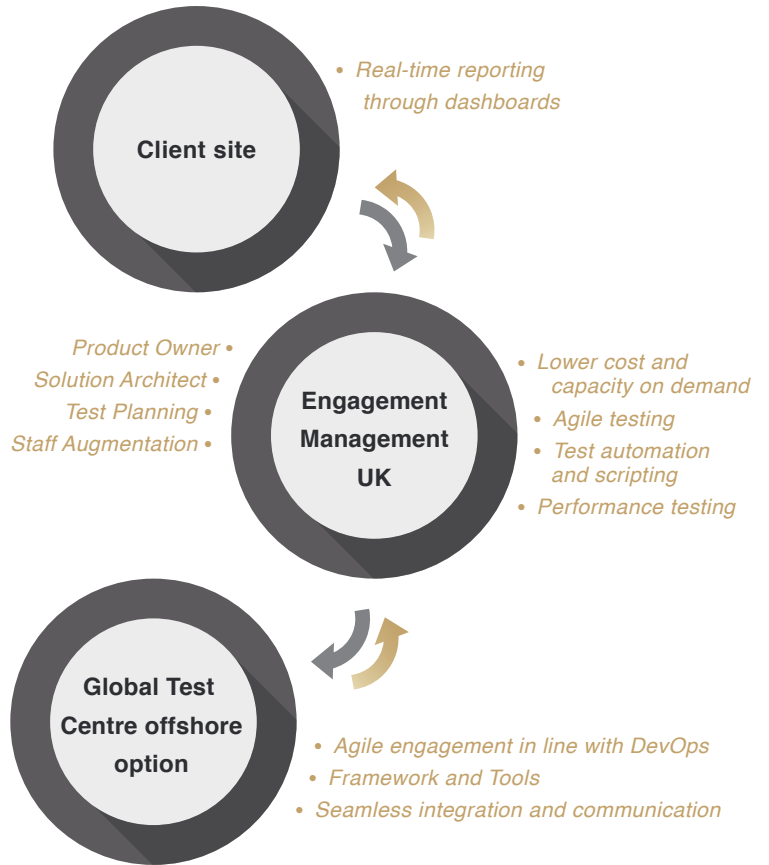

- Chris Wilkins, CEO, Dynamic Technologies

INSPIRED CREDENTIALS

- Balanced onshore offshore delivery model
- Offshore facilities in Cape Town, South Africa
- Digital transformation specialist in the UK, Europe and South Africa

Inspired Testing is a wholly-owned subsidiary of Dynamic Technologies, a software and technology group with 1000+ staff and ten group companies providing a diverse range of technology solutions, digital services and related core competencies. Our group companies comprise DVT (which includes the DVT Academy), Inspired Testing, Cloudsmiths, EventSmiths, Swarm, Blue Pencil Consulting, DotModus, Emerald Consulting, Dynamic DNA and DTH Services. Visit Dynamic Technologies at www.dynamic-tech.com.

Inspired Testing provides a measurable return on investment and ongoing real-time results, in an environment where software must work perfectly, every time.
